SELAH is a non-profit homeless coalition where individual NC board members can participate in discussions with them to help the homeless. It does not represent Neighborhood Councils. It works with NC homeless committees.

Do you have a city document that says Council Districts participate in homeless encampment clean ups with crews that have been trained in particular areas to be able to handle any situation that might arise.

If a non-profit goes to clean up city and/or state land where homeless encampments are located, would they need a permit or license. or is this kind of job limited to City employees because of the risk involved.

Connie

Hi Connie,

I am aware of the work SELAH does along with their advocacy.

I am not understanding your questions regarding the service days and Council offices. Let me know if you want to schedule a call to discuss.

Individual organizations are free to do outreach and provide services to the homeless, they should not need a permit to my understanding.
